SUMMARY

I am a right full back defender with bright vision, pace and stamina. I have been a football lover all my life and always had the desire to succeed in my footballing career someday.

Football is my God given talent and I never intend to deviate from it. I started playing football at a tender age of six (6) in my local community and these teams were local teams which had not even registered with the FA of my country yet.

As time went by I joined ARSENAL BABIES, one of the local teams in my community at age nine (9) and was a member of the team until 2016.

Then I joined RELIC FC at age 14 and was a member of the team until 2018.

As a young talented footballer, I always wanted to progress in my career and wish to be one of the topmost players with higher pedigree at the top flight teams in Europe and even the world at large.

SKILLS

- Able to tackle the ball without conceding a take-on by an opponent.
- Able to give a close range marking without getting passed by with the ball by an opponent.
- Very good with Air-balls.
- Able to sprint back when an attacking effort overturns into defending.
- Attacking minded with great vision.
- Able to sprint forward with the ball and make a good cross.
- Long and short distance passes minded.
- Able to use my strength to confuse attackers and have a great vision on the ball
