

Juan Carlos Gimeno Losa

ABOUT ME

Formed in the academy of the Numancia CD, one of the most recognized clubs in Spain, I am a very tactically intelligent player, standing out in the control and vision of the game, as well as good passing ability. With great physical resistance, I cover a lot of terrain in the field, being an ideal recuperator of the ball in the defensive aspect. I give a lot of balance to the team.

I am currently looking for new challenges in my professional career to develop and demonstrate all my potential and abilities.
